

LANE AND BRANDEIS MEXICAN CONFEREES

Third Member Chosen by
Wilson for Commission
Is a Catholic.

WASHINGTON, Aug. 9.—Plans for the settlement of the border controversy between the United States and Mexico by means of a joint commission made progress today. Secretary Lane of the Interior Department and Associate Justice Brandeis of the Supreme Court of the United States have been selected as two of the three American members of the commission. The third member will be announced as soon as he accepts the President's invitation to serve. He probably will be a Roman Catholic.

The announcement that the commissioners had been selected came after another conference today between Acting Secretary of State Polk and Eliseo Arredondo, the Mexican Ambassador designate. Mr. Polk said he had been informed by the Ambassador that Carranza construed his last note as an acceptance of the President's note suggesting a broadening of the scope of the commission's work.

Mr. Polk and Mr. Arredondo will later confer about the time and place for the meeting. It is understood that some possible resort on the New Jersey coast will be selected.

It was learned today authoritatively at the State Department that the question of the withdrawal of American troops from Mexico will be disposed of and agreed to by both Governments before discussion of other subjects is undertaken.

Must Be Ratified.
The work of the commission must be ratified both by the United States and Mexican Governments before it in any way becomes effective, but this does not mean, it is explained, that separate questions discussed will have to wait until the commission finishes its labors before being ratified. Thus when the question of withdrawal of Gen. Pershing's force has been threshed out, the decision will be placed before President Wilson and Gen. Carranza for ratification. If it is ratified the troops may start for home before further questions are decided.

The policy of Carranza's representatives will be to force this issue at once without reference to other matters. The policy of the American representatives will be to make the withdrawal of troops a great extent dependent upon the study of border conditions. Carranza will admittedly hold the whip hand, as he can threaten to break up the conference at any time, and he realizes that this would make a distinctly unfavorable impression for the President's campaign purposes.

The immediate military situation on the border disposed of, the commission will be ready to proceed with its remaining specific task, investigation to determine whether interests deserving intervention have been injured by the revolution. The commission may make a trip to Mexico to observe conditions.

Choice Placed Mexicans.

Secretary Lane has been in close touch with the Mexican situation since he entered the Cabinet. Mexicans here are known to be well pleased with the selection of Judge Brandeis. They believe that he has a natural sympathy with the purpose of the revolutionary movement in Mexico.

The Mexican Embassy issued the following: "Eliseo Arredondo, Ambassador designate of Mexico at Washington, received today an official cablegram from Mexico city which announces the surrender of so-called Gen. Mariano Carranza with his band of 150 malcontents, recently affiliated with the Zapatista movement.

"The surrender took place in the State of Morelos and it is reported that other bands are asking amnesty and will surrender in the course of the ensuing week. This collapse of the rebellious activities of the Mexican soldiers in Morelos is directly attributed to the effective campaign which Gen. Pablo Gonzalez recently has waged against the bandits and by reason of the complete protection which Gen. Gonzalez's troops have of late furnished the law-abiding and peace-loving citizens of Morelos.

Minister of War Obregon, informed by Gen. Laveaga that the Villista Col. Herrera, previously in arms in the State of Chihuahua, has offered unconditional surrender to take place at the town of Santiago in that State, after which he will be sent to Mexico city."

MORE OFFICERS QUIT.

Two Majors and Others Ask to Leave Border Duty.

HEADQUARTERS NEW YORK DIVISION, McCLELLAN, Tex., Aug. 9.—Five more officers in the New York division resigned today. The necessity of choosing between being business men or soldiers, which has already resulted in the withdrawal of three officers from the Seventy-first Infantry and one officer from the Fourteenth Infantry, brought forth the resignations today of Major Frederick N. Whitley of the First Battalion, Twenty-second Infantry; Major Edmund D. McCarthy, adjutant of the Third Brigade at Barr, who had the additional reason of poor health; First Lieutenant Lawrence Gardner, aide to Brig. Gen. Wilson; First Lieutenant Arthur B. Chase of Company D, Fourteenth Infantry, and Second Lieutenant James E. Curtis, Jr., of Company K, Fourteenth Infantry. Capt. Howard Campbell of Company I, Fourteenth Infantry, resigned several days ago. It is understood that other resignations in the division are pending. Lieutenant Gardner is secretary of the Pierce-Arrow Company in Buffalo.

Col. H. H. Bandholtz, chief of staff, has recommended to department headquarters that the division be empowered to grant thirty day furloughs. The fifteen day furlough which can be allowed here has been found not long enough to enable a New York man to return home and arrange business affairs and valuable time is lost when a thirty day furlough must be sent to San Antonio for approval.

Col. John H. Foote of the Fourteenth Infantry is Mission proud of the health of his regiment. Only thirteen men out of 1,026 were assigned to quarters in the whole month of July. This is slightly over 1 per cent. For the last ten days, in which the heaviest rains occurred, the record was 1.41 per cent, including cases of diseases to which men had voluntarily exposed themselves.

Two of this class of cases are the only ones from the Fourteenth which have been removed to the first field hospital at McAllen.

The Sixty-ninth Infantry waited again today for the arrival of Col. William N. Haskell, but as on previous days when the advent was announced over the telephone, he failed to appear.

Three officers of the Sixty-ninth were assigned to serve as Second Lieutenants in the regular army today. They are Second Lieutenants J. T. Trout of Company E, W. B. Burns of Company B, and Rogers D. Montserat of Company M. To what units they will be detailed has not yet been announced.

FRANKLIN K. LANE (above) and Louis D. Brandeis, selected by President Wilson to confer with Carranza's envoys.

C.O.D. GOODS VANISHED AS WOMAN PARLEYED

Messenger Boy Looked in
Boxes and Her Arrest
Followed.

Evelyn Sears of 174 West 107th street was held for Special Sessions in \$200 bail by Magistrate Barlow in Jefferson Market Court yesterday after pleading guilty to a scheme which, according to the testimony, was worked as follows:

The woman took an option on a vacant flat at 250 West Eighteenth street in the morning, then left saying she must get her husband's consent. A visit to a Fifth Avenue store resulted in a \$15 hat, a \$7 pair of shoes and a \$15.50 sweater being sent to the flat C. O. D. Meanwhile the woman had returned to await her husband. When the delivery boy brought the packages she took them inside, leaving him at the door.

After a few minutes she returned. She only had a \$20 bill, she said, and must have lost the rest of her money somewhere. The boy must take the goods back to the store, where she would call for them.

But the boy looked inside the packages when he got down stairs and found that the shoes, hat and sweater were gone and old clothes had been substituted. A policeman was called and arrested the woman.

SCHOOLS STAY SHUT OWING TO EPIDEMIC

Continued from First Page.

Children are taken to hospitals they will be robbed of blood. Commissioner Emerson yesterday was distressed at this attitude of antagonism that his helpers have found in certain congested districts of the lower East side, and the hiding of cases of paralysis which has resulted.

Serum Only From Volunteers.
"In no instance," he said emphatically, "is blood taken from any child in a hospital. The blood for the serum is given voluntarily by persons who have wholly recovered from the disease. Such persons volunteer their blood for the use in the hospitals for the possible cure of the stricken children, and if we could only make them understand that it would be a great help."

The Health Commissioner also made an appeal yesterday for more volunteers who are qualified to give their blood for the preparation of the serum used in the treatment of infantile paralysis. There is a particular need for the serum in Brooklyn, he said.

Among the volunteers was Louis Anshun, 18, of 85 Lewis street, Brooklyn, who had the disease as a child. He gave four ounces to be used in the treatment of his little sister in the Willard Parker Hospital.

Ten patients at the Willard Parker Hospital were given the serum treatment yesterday. Two showed immediate improvement. Their temperature dropped and the virus injected subcutaneously. The eight other treated cases did not give immediate response to the serum.

How Serum Is Employed.

Dr. Emerson yesterday issued a bulletin on the serum treatment which follows in part: "Among the various methods advocated for the specific treatment of poliomyelitis several deserve mention as being based on sound scientific principles. One of these consists of using the fluid withdrawn by spinal puncture for re-injection subcutaneously. This method is based on the assumption that the spinal fluid withdrawn from the patient contains the virus of the disease, and that the virus injected subcutaneously or intramuscularly stimulates the production of anti-bodies which will aid in overcoming the infection.

"Another method consists in treating the patient by means of spinal injections of blood serum derived from persons who have recovered from poliomyelitis. Since it is known that the withdrawal of spinal fluid is in itself followed by a marked improvement, a series of patients have been treated merely by spinal puncture without any injections.

"The physician in charge of hospital patients are unable to say what value, if any, the foregoing treatment actually possess. It will be only after very careful comparisons between the different series that any just estimates can be made."

First Patient Discharged.

The first patient to be discharged as recovered in the present epidemic was Joseph Noble, 2 years old, of 352 Warren street, Brooklyn. He was taken to the Kingston Avenue Hospital June 14, and when discharged yesterday afternoon, was wearing a plaster cast on his left ankle as evidence of paralysis. The child was taken to Dr. Rushmore's clinic in the Long Island College Hospital, and probably will have to wear a brace. His discharge was at the end of eight weeks of quarantine.

A challenge was issued to the Health Department yesterday by Dr. Edward J. Birmingham of the New York Nose, Throat and Lung Hospital, who has been using the adenoidal treatment in his hospital for infantile paralysis on the recommendations of Dr. S. J. Mellinger of the Rockefeller Institute. The challenge is to let him treat through his surgeons 500 or 1,000 victims of the disease at the Kingston Avenue or Willard Parker hospitals—he to supply the surgeons and treatment free and the hospitals to do the nursing.

Dr. Emerson's reply to the challenge was that the treatment of cases is entirely put under the medical boards of hospitals. "This department will not require them to give any treatment which their judgment may not approve."

Commissioner Emerson yesterday also made an appeal for donations of white enamel iron cribs for the infantile paralysis cases.

"We have ransacked the market, and we cannot get anywhere near as many cribs as we require. In many hospitals there are now two babies to a cot. The commercial supply seems to be exhausted. We need at least 1,000 cribs at once."

A new hospital for the exclusive treatment of infantile paralysis patients will be opened Friday in the five story building at 128 East Fifty-ninth street, under the auspices of the New York Hospital, according to the announcement of Dr. Thomas Howell last night. The building was formerly occupied by the New York Orthopedic Hospital and was donated by the directors of that institution. Dr. J. C. Roper of the New York Hospital will be in charge at the hospital with a staff of forty-five physicians and nurses under him. The building was chosen in preference to another building in Varick street offered by Trinity Church Corporation.

The lower East side is being cleaned up inside the houses as it never has been cleaned up before. Street Cleaning Commissioner Fetherston said yesterday. A particular effort is being made to keep the city as clean as possible to prevent the spread of disease. Five additional bicycle policemen were assigned to go on duty in Brooklyn yesterday by Commissioner Woods to watch for sanitary violations, and a house to house canvass in the infected districts is being planned.

Jersey Resorts Complain.
Neighboring cities and communities are making more stringent regulations to prevent the further spread of the disease from New York.

A committee of indignant citizens of Keansburg, N. J., called on Dr. Charles E. Banks at the Federal Building yesterday to demand that they be kept out of New York, who insist on going there, although they are not having the same trouble. Dr. Banks notified the steamship companies doing business to the Jersey coast that they would be held responsible for children under 16 years of age if permitted to land without the proper certificate.

No paralysis cases have yet been reported from Atlantic Highlands, but three miles distant. There are three at Keansburg, three at Red Bank and two at Long Branch.

The Montclair health authorities served notice on Joseph A. Brady, postmaster of Caldwell, that if he enters Montclair within the next ten days he will be arrested. The action was an answer to an order of the Caldwell health authorities giving Brady, who has a case of infantile paralysis in his family, permission to live in Montclair.

The rigid enforcement of the quarantine regulations at Trenton prevented the appearance yesterday of Elsie Coyer, 12 years of age, of Jamesburg, before the Commissioner of the Motor Vehicle department. On her way in answer to the summons with her father she was held up by a policeman and not allowed to proceed. One of \$20 was entered against her father for permitting one so young to drive his car.

Jersey Cases Also Increase.

The New Jersey State Board of Health yesterday recommended that the opening of the public schools of Trenton be deferred until October. There were reported 159 new cases of infantile paralysis in New Jersey yesterday, 105 of which were in Newark, making a total of 1,213.

Forty-six cases of infantile paralysis in various sections of the State of New Jersey, outside New York city, were reported to the State Department of Health during the twenty-four hours ended at 5 P. M. yesterday. One death occurred at New Rochelle. These additions to the lists made a total of 74 deaths and 796 cases since the outbreak of the epidemic. Health department officials were notified yesterday that the construction of a hospital to cost \$100,000 was begun to take Col. Theodore Roosevelt began to take an active interest in the campaign against infantile paralysis in Nassau county when he met with other residents at the country home of Henry B. Walbridge of Roslyn for a conference at which \$10,000 was pledged to check the spread of the disease. A laboratory will be fitted up, and Dr. George Trauer of the State Health Department will be in charge of the work.

Seven new cases were reported yesterday in Oyster Bay, including another child of W. O. Gay, whose estate adjoints that of Col. Roosevelt. This makes four cases in Mr. Gay's family. Seventeen new cases of infantile paralysis were reported yesterday in Connecticut, making a total of 206 in the State. Dr. John T. Black, secretary of the State Board of Health, yesterday

THEY USED TO SAY "THE best lessons a man can learn are from his own mistakes."

We do better nowadays—we take the burden of mistakes off our shoulders. There is a further advantage from insuring against title mistakes—it costs no more than does plain title examination.
